

November 6, 2020

Dear Families and Friends,

We are following up with our note from yesterday. We tested all of the Residents and unfortunately one did test positive. We thank the Lord that this Resident is not exhibiting any symptoms and we were able to detect the virus quickly. The family was notified immediately about this finding. The Resident was transferred to a designated area in the Home and will be cared for by dedicated personnel in that area on a 24 hour basis.

We are once again recommending and reminding all of our personnel to reinforce the infection control measures.... The three W's:

- **W**ear your mask,
- **W**ash your hands,
- **W**atch your distancing.

We continue to place ourselves and our dear Residents in the Lord's hands. Please join your prayers with ours. Keep well and stay safe.

Mother Margaret Patricia and Little Sisters
