

COVID Update Letter 12.3.20

Dear Friends,

I must write to tell you that November 30, during our semi-weekly all-staff COVID-19 testing, one of our 115 employees tested positive and is home in quarantine. We immediately began testing Residents on Monday and completed all testing Tuesday. However, because of using an outside lab, we might have to wait a few days for the results. I will write you again as soon as we have all of the Residents' results.

On behalf of all the Little Sisters, we pray for your continued safety and strength as we forge on with full trust that God will see us through this pandemic. In this Season of Advent let us unite together in waiting with full faith, hope, joy and peace.

We especially hold our Residents, you and your families, and our staff in His loving care.

Have a Blessed Advent,

*Mother Margaret*
