

February 1, 2021

Dear Friends,

I will make this note short and sweet. I am beyond grateful to report that all of our Residents and all of the staff have completed two rounds of negative testing! Good Saint Joseph and Saint Jeanne Jugan indeed are our special protectors and intercessors. Our Residents are now liberated and can leave the confines of their rooms, distancing and enjoying seeing one another again. We saw some in the chapel already this afternoon thanking the Lord, one of the first things they did. We will celebrate Mass in the Chapel again, with distancing and masks, for as long as we have good results!

We continue with extreme caution in all infection control measures and look forward to the second dose of the COVID vaccine to be administered February 8th. Mostly, we continue to pray for all who are sick and recovering and we especially pray for you.

We have a special favor to ask you: We are in dire need of RNs and LPNs. We will make every effort we can to work with their availability. Please look around your circle of friends and family and contact Kim LaSage, HR Director at 816 761-4744. We need to pray to St. Joseph, especially during this year dedicated to him by Pope Francis, to help us with this special intention. Thank you so much and we thank St. Joseph ahead of time.

God Bless you,

*Mother Margaret*
