

February 10, 2022

Dear Family and Friends,

Greetings on another beautiful, sunny Thursday. This week I am happy again to report that we had no COVID-19 positive cases for our Residents. Yet again, we continue to have some positive cases with our staff. This week two staff members were positive. Last week four staff members were positive. We will test all staff and Residents again next week and I will keep you informed of our status.

I also have to tell you that our dear Sr. Helena, who has been working with the 2nd floor Residents, is being transferred to the Home in Palatine, IL. Sr. Helena left on Feb 5. Please pray especially for her, and all the new Little Sisters as they continue through their formation journey. Sr Helena is loved by all the residents and staff. While we will miss her, we wish her well and know she will be warmly welcomed by all in Palatine. We do not have word at this time when another sister will be coming in replacement. Sister Gonzague will be working with the second floor Residents in case you would need her.

Tomorrow the feast of Our Lady of Lourdes is special for us. The Residents will receive the Sacrament of the Sick. Our Chaplain, Father Timothy Leete, will go around the home after Mass to bless it and bless all those who work with the sick.

Continue to pray for all those recovering from being sick. Good St. Joseph watch over and protect our Home and your home too!

God bless you,

*Mother Margaret Patricia and the Little Sisters*
